Education

Shri G.S Institute of Technology and Science, Indore, Madhya Pradesh Rajiv Gandhi Proudlyogiki Vishwavidyalaya, Bhopal (Mp), India <i>Masters of Computer Application Computer Science and Engineering</i>	Sep 2024 - Apr 2026
Medicaps University , Indore Rajiv Gandhi Proudlyogiki Vishwavidyalaya, Bhopal (MP), India <i>Bachelor of Computer Application Computer Science and Engineering</i>	Sep 2021 - Apr 2024
Christina Convent Higher Secondary School MP Board of Secondary Education <i>Senior Secondary School Certificate</i>	Apr 2020 - Mar 2021
Christina Convent Higher Secondary School MP Board of Secondary Education <i>High Secondary School Certificate</i>	Apr 2018 - Mar 2019

Technical Skills

- **Programming Languages** : C | Core Java | Python (Pandas, Scikit-learn) | SQL
- **Web Technologies** : Next.js (App Router) | Django REST Framework | React.js | JavaScript | Tailwind CSS
- **Database Technologies** : MySQL | PostgreSQL
- **Tools & Version Control** : Git & GitHub | Postman | Lucide React

Experience

Full Stack Developer Almanet Professional Services	Jan 2026 - Present
• Developed a HealthCare Platform using Next.js & Django, building scalable dashboards for Admins, Doctors, NGO. • Developed scalable RESTful APIs using Django REST Framework (DRF) to ensure high-performance data communication between Next.js and PostgreSQL • Implemented core backend logic for Doctor Verification and NGO modules to coordinate donation camps and health programs. • Created a Blood Bank Control Room with live inventory tracking and emergency alert systems for rapid response.	

Projects

Car Recommendation System Python, KNN, Pandas
• Developed a recommendation engine using the K-Nearest Neighbors (KNN) algorithm to suggest vehicles based on user preferences. • Processed and analyzed datasets using Pandas to ensure high accuracy in model predictions.

Certifications

- Artificial Intelligence - **Oracle**
- Python Programming - **Coursera**
- Java - **Cognitive Class**
